

TruGroove recessed delivers unrivaled performance and a truly innovative design – making a definitive statement in any architectural space. **TruGroove recessed** corners provide endless opportunities for creative freedom with geometric patterns in walls and ceilings.

TruGroove recessed includes **AccuRender** technology for the highest color quality at the highest efficacy.

		K Outside corner (90°)	0 Definition symmetric						
		G Inside corner (90° bracket)							

***Notes:**
T-Grid mount option is compatible with NEMA Type G, NFG, NFSG, SS and Armstrong TechZone 4".
Drywall trimless (wall recessed) fixtures are only available in the Definition Symmetric distribution (0), with Flush Silk lens optics (L).
Armstrong Formations Clouds have been specifically designed for the integration of Ledalite TruGroove recessed luminaires in 6 ft, 8 ft, or 10 ft lengths.
Continuous run lengths available from 6ft, in increments as small as 1/8in. Increments ≥1ft up to 6000lm/4ft (TYPE NON-IC) or up to 5000lm/4ft (TYPE IC). Increments <1ft up to 4000lm/4ft (TYPE IC).

†Notes:
UL924 listed sensor bypass relay only available in fixtures ≥ 4ft and is factory installed between driver & sensor. Must be ordered with an integral sensing option. Must be installed in conjunction with a UL1008 device.
Interact sensors can only be combined with SR driver types S & F. Must select NN for Systems/Controls options with all other driver types.
Integral sensors only available at end of run in flush lens ceiling fixtures. For other fixture configurations please enquire about options for remote mount sensors (confirm recessed or surface sensor mounting).
Integral sensor colour can be white or black to match trim finish. Remote sensors and mounting are white only.
Signify sensor options shown in the order guide. Third party sensors also available, please enquire about options for Lutron Athena, Vive, or others.

Footnotes

- Nominal values within a range. Some lumen packages not available in all configurations, consult photometry data for CRI/CCT (static & tunable white), lumens & distribution of chosen configuration.
- Standard and Chicago Plenum Housings available upto 6000lm/4ft (TYPE NON-IC) or upto 5000lm/4ft (TYPE IC). See order guide notes above.
- Tunable White & BioUp only available with Advance FlexTune 2ch SR, 0-10V 2ch, DALI-2 (DT6 or DT8) drivers. Please enquire about options for Lutron or DMX (extended lead times may apply).
- Standard TruGroove recessed Flat, Inside and Outside Corners are nominally 2ftx2ft and 90°. Please inquire about options for custom angles & intersections (extended lead times may apply).
- 347V Only available with static white 0-10V options, not available with GTD or Battery Packs.
- Some circuit/wiring options not available in all configurations, consult Ledalite for available options.
- Luminaires are pre-wired to ends with quick wire connectors at one end for standard circuit & battery pack trigger wire (if applicable). Each circuit has its own neutral conductor. All circuits are clearly labelled at each end.
- Through-wire options provide either one additional set of (4) power and dimming wires (Black/White/Purple/Pink or Brown) or one additional battery pack trigger wire (Orange) through a selected module. Please enquire for other through-wire options (extended lead times may apply).
- Auxiliary & GTD wiring not available in Interact Pro luminaires. Auxiliary sections are wired to one fixture end only.
- Interact sensor control only available when selecting a Sensor Ready driver option. Interact Pro options may require an IRT9015 Interact commissioning remote or other separate controls hardware by Signify.
- Battery packs available in modules ≥4ft (lumen package limits may apply, check with Ledalite).
- Other options not shown here may also be possible via a custom request, please consult factory. Extended lead times and minimum order quantities may apply.

Note: Due to continuing product improvements, Ledalite reserves the right to change the specifications without notice.

DLC Note: Not all product variations are DLC qualified. To ensure that a specific model is qualified, please enter "RRRYKC" in the search field here: <https://qpl.designlights.org/qpl/solid-state-lighting>

TruGroove recessed

TruGroove recessed comprises a seamless 3" wide ribbon of light with exceptional performance and versatility for functional and decorative linear rows or fully illuminated patterns.

Find the TruGroove recessed family by scanning or clicking the QR code.

Trims

Finishes

Note: Colors above are a representation, due to monitor calibration or printing process they may differ from luminaire powder coat finish.

Options

Standalone

Keep it simple with standalone modules, available in 6 standard lengths. Consult Ledalite for custom lengths (extended lead times may apply).

Continuous runs

Create an uninterrupted ribbon of light with continuous runs, specifiable to 1/8".

Patterns

Transition from wall to ceiling seamlessly creating unique patterns in the horizontal and vertical planes with the available 90° flat, inside, or outside corners. Contact Ledalite for other custom angles and intersections (extended lead times may apply).

TruGroove recessed

Corners

1. Flat Corner (90°)*

Flat corners can be used to create ceiling or wall recessed patterns. Available for drywall and inside or outside T-Grid patterns.

2. Inside Wall Corner (90° Bracket)*

Inside corners use a bracket kit to join a ceiling recessed and wall recessed fixture.

3. Outside Wall Corner (90°)*

Outside corners are used to create patterns around drywall corners.

Corner Type	Housing	Drywall Mounting Points	Overall Trim Length		
			T-Grid	Drywall Trimless	Drywall Trim
A4 - Flat corner	25.7" [653mm]	23.3" [593mm]	25.9" [658mm]	27.1" [689mm]	26.3" [667mm]
AI - Inside grid corner	23.7" [603mm]	21.6" [549mm]	23.9" [607mm]	N/A	N/A
AO - Outside grid corner	27.8" [705mm]	25.6" [651mm]	27.9" [709mm]	N/A	N/A

OO - Inside wall corner	N/A	N/A	N/A	N/A	N/A

***Note:** Standard TruGroove recessed Flat, Inside and Outside Corners are 90°. Please inquire about options for custom angles & intersections (extended lead times may apply).

TruGroove recessed

Specifications

Optical System

Performance version: Light from the LEDs is reflected and redirected through an optical lens assembly comprising an acrylic extrusion profile and a layer of precision MesoOptics DX film, creating an uninterrupted continuum of light with an optical batwing distribution.

Definition version: Light passes through a diffuse white acrylic silk lens to deliver a highly uniform luminous continuum.

Housing

Die-formed, 20 gauge cold-rolled steel housing. Multiple upper wire entrances are available for continuous row mounting of fixtures.

Finish

Extruded aluminum trim and die-cast endplates coated with an electrostatically applied, thermally cured polyester powder coat finish.

Mounting

T-Grid: Mounting brackets on housing sides support T-Grid installation in 9/16", 15/16" or slot T-Grid suspension systems (NEMA types G, NFG, NFSG, SS and Armstrong TechZone 4").

Drywall (Ceiling mounted): Ceiling mounted luminaires are available with Drywall Trim or Trimless options. A 1/16" diameter aircraft cable with self-locking, tamper-resistant, miniature cable gripper provides vertical adjustment. The aircraft cable, crimp and gripper have been independently tested to meet stringent safety requirements.

Drywall (Wall mounted): Wall mounted luminaires are only available with the Drywall Trimless option. In a continuous wall to ceiling pattern with an inside corner the ceiling run can use a different trim option if required.

Joints

Self-aligning joining system with hands-free pre-joining wire access.

Weight

Maximum 3.5lbs/ft.

Electrical

Fixtures are factory pre-wired to section ends with quick-wire connectors and tested for all circuits and backup battery packs. LED boards and drivers are easily field replaceable with access from below the ceiling. Optional armored cable flex whips are available in 6' lengths.

Standard Drivers

Advance Xitanium 0-10V, 1% Dimming.
Advance Xitanium DALI-2 compliant, 5% Dimming.
Lutron EcoSystem LDE1, 1% Dimming with Soft-On and Fade-to-Black.
Advance Xitanium SR, DALI-2 D4i (1% Dim)

2ch Tunable Drivers

Advance FlexTune Sensor Ready, DALI-2 compliant 1% Dimming.
0-10V, 0.1% Dimming.
DALI-2 DT6 or DT8, 0.1% Dimming.
Class 2 rated output. Consult Ledalite for other available drivers.

Standard Battery Packs

Bodine Battery Pack, 90 min, 10W, Class 2 rated output.
Lumen output = 10W x luminaire efficacy x 1.1. Typical output ~1300lm.

Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-15. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is:
 $L_{80}(10k) > 60,000$ hours (Reported methodology).

Source Color

LEDs rated for color rendering of:
 $CRI R_a \geq 90, R_g \geq 50, G_a \geq 97, C_g \geq 90$
IES TM-30-18 : $R_f \geq 90, R_{f,h1} \geq 89, R_g \geq 99, R_{cs,h1} \geq -5\%$

SPD and TM-30-18 reports available upon request

Fixture to fixture color accuracy within:
2 SDCM for Static White luminaires
3 SDCM for Tunable White luminaires

Approvals

Certified to UL, IES & CSA Standards.

City of Chicago Approved CCEA (housing option C).

Type IC Rated.

Certain versions without battery packs are DesignLights Consortium qualified. Check the DLC QPL list for specific model numbers. Please enter "RRRYKC" in the search field here:
<https://qpl.designlights.org/qpl/solid-state-lighting>.

TruGroove is Declare label certified. More information on the TruGroove label can be found on www.declare.living-future.org.

Select TruGroove micro configurations contribute toward satisfying features L03, L04, L06, L07 and L08 under the WELL v2 Building Standard®.

Luminaires that include Interact Pro controls options can help meet the requirements in 90.1-2022, IECC 2021, and CA T24 2022 for a maximum of 20min. time out for occupancy controls.

Environment

Rated for dry or damp locations in operating ambient temperatures of 25±5°C (77±9°F).

Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur-based chemicals, petroleum-based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum-based solution or other contaminants are not covered under warranty. Not suitable for natatorium environments.

Warranty

Five-year luminaire limited warranty including LED boards and driver:
www.signify.com/warranties

QuickShip

10-day QuickShip available for most configurations upon request.
More information available at:
www.signify.com/en-us/brands/ledalite/quickship

TruGroove recessed

Controls Options*

Interact Radio Node for Standalone, Gateway and Gateway + IoT tiers (RA)

- RA is a connected radio node supporting wireless mesh connectivity.

Interact sensor for Standalone, Gateway and Gateway + IoT tiers (CS)

- CS is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor can operate in a standalone mode or in a gateway mode.
- Interact includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro app (Android or iPhone) & Bluetooth connectivity. The app provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway.
It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote onsite to identify and group devices together.
- Compatible with UID8465/10 or UID8465/50 wireless dimmer switches, wireless dimmer switch, SWS200 wireless scene switch, wireless occupancy sensor (OCC0100A/02 BP Sensor WH) and wireless daylight /occupancy sensor (OCC0101A/02 DL BP Sensor WH).
- For more information on Interact visit:
www.interact-lighting.com/en-us/what-is-possible/about-interact

Interact sensor bundles for Gateway + IoT tier (SB)

- SB option, in addition to occupancy and daylight sensing, supports advanced IoT capabilities such as people estimation analysis, desk level temperature & humidity sensing, noise classification, and Bluetooth Low Energy (BLE) beacon.
- Compatible with UID8465/10 or UID8465/50 wireless dimmers switches, SWS200 wireless scene switch, wireless occupancy sensor (OCC0100A/02 BP Sensor WH) and wireless daylight/occupancy sensor (OCC0101A/02 DL BP Sensor WH).
- Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Requires compatible gateway and internet connectivity for commissioning. For more information, visit: www.interact-lighting.com/office

Tunable White & BioUp

- Tunable white and BioUp options are available with Interact wireless or with 2ch 0-10V or DALI-2 (DT6 or DT8) wired drivers. Please inquire about options such as Lutron or DMX control (extended lead times may apply).
- Signify tunable white solutions are designed to help maximize the influence of lighting on your daily life.
- Signify BioUp helps support daytime circadian rhythm for engagement during the day and good sleep quality at night.
- Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms.
- Scene setting via lighting pre-sets based on various combinations of lighting color temperature and intensity.

3rd Party Sensors

- Third party sensors also available, please enquire about options for Lutron Athena, Vive, or others.

1. Color Rendering Index (CRI R_a) and Strong Red (R_9) are calculated in accordance with CIE 013.3-1995. Color Gamut index (G_a) and red chroma Index (C_9) are CIE based properties using the Global Lighting Association's calculation tool.
2. Fidelity Index (R_f), Red Fidelity Index ($R_{f,h1}$), Gamut Index (R_g), and Red Local Chroma Shift ($R_{cs,h1}$) are calculated in accordance with IES TM-30-18.-18.
3. Melanopic Daylight Efficacy Ratio (MDER) is the measure for "spectral melanopic efficiency" as defined in CIE S 026-2018.

1. 4ft Luminaire photometry has been conducted in accordance with IES LM-79-08. Photometry should be scaled for luminaire configurations other than 4ft. Luminaires with finishes other than standard white may result in a drop in flux and efficacy.
2. Unified Glare Ratio (UGR) is calculated in accordance with CIE 117-1995. Reference conditions of 4Hx8Hx1H and reflectances of 70/50/20% have been applied using the procedure described in CIE 190-2010.

3. Input power stated at 3500K.
4. IES files can be downloaded by clicking the links in the table above, or online at www.ledalite.com. TruGroove recessed luminaire IES files are provided as 4ft sections. Note, BioUp & Tunable white IES files provided at 2700K.
5. BioUp & Tunable White, stated with Advance FlexTune SR driver & Interact scalable wireless sensor, Static White stated with Advance Xitanium 0-10V driver, data may vary with other drivers.

- 4ft Luminaire photometry has been conducted in accordance with IES LM-79-08. Photometry should be scaled for luminaire configurations other than 4ft. Luminaires with finishes other than standard white may result in a drop in flux and efficacy.
- Unified Glare Ratio (UGR) is calculated in accordance with CIE 117-1995. Reference conditions of 4Hx8Hx1H and reflectances of 70/50/20% have been applied using the procedure described in CIE 190-2010.

- Input power stated at 3500K.
- IES files can be downloaded by clicking the links in the table above, or online at www.ledalite.com. TruGroove recessed luminaire IES files are provided as 4ft sections. Note, BioUp & Tunable white IES files provided at 2700K.
- BioUp & Tunable White, stated with Advance FlexTune SR driver & Interact scalable wireless sensor, Static White stated with Advance Xitanium 0-10V driver, data may vary with other drivers.
